Overview

Welcome to **Beyond the Chatbox: LLM Coding Agents for Research** (September 2026).

This workshop provides a practical introduction to using large language models (LLMs) and agentic workflows in scientific research, computational reproducibility, and data analysis.

Workshop Information

- **Date:** September 2026
- **Topic:** LLM Coding and Research Agents
- **Target Audience:** Researchers, data analysts, and computational scientists
- **Instructor:** Egor Kotov (TU Dortmund University, Universitat Pompeu Fabra, Max Planck Institute for Demographic Research)

Structure

Materials, tutorials, and hands-on exercises will be posted here as the workshop approaches.
